

# Teaching Students with Special Needs in Inclusive Settings

**Tom E.C. Smith, James Patton, and Edward Polloway and Carol Dowdy**

Highlights the IEP process throughout the book and prepares teachers to engage meaningfully in the IEP process, reminds them of the individualities among all students, and helps them see the “big picture” of how a teacher’s daily curricular modifications and instructional adaptations help their student with disabilities meet important learning goals.

Separate chapters explore the history and characteristics of disabilities such as autism spectrum disorders, ADHD, learning disabilities, and less frequently seen challenges like severe physical disabilities, and go on to provide clear, comprehensive guidance for teachers who work with students of varying abilities and learning challenges in their classrooms.

This bestselling book provides teachers in both general and special education the knowledge, skills, and strategies they need to effectively include students with special needs in every classroom and to provide appropriate instruction for every student.
